Children's activity descriptions

Physical Literacy / Physical Movement - Low Organized Games (Kate Kristoffel, Atlantic Stars Academy)

Kate will be engaging the children in activities in the form of low organized games reinforcing all that she will be discussing in her animated and fun workshop. CHILDREN - Please wear appropriate gym attire. Indoor sneakers are a must. Also, please bring a bottle of water as you may require refreshment.

MAD Science (Charlotte & Larry Hartley)

Mom & Dad of 7 and home educated all seven of her children. Mrs Charlotte also has an early childhood education diploma. Mr Larry help his wife Charlotte home educate all 7 as well as he is a pastor at a local church

- Our Mad Science workshop will offer students a hands-on and fun science experience.
- Our science workshops offer professional lesson plans, unique equipment, and dynamic instructors.
- Our spectacular demonstrations, hands-on activities, and real world discussions make learning about science fun for kids!
- Our interactive program will be themed around particular areas of science and could include such topics as rocketry, magnets, polymers, and even the science of toys.
- Children are encouraged to give science a try and build and discover with their mad science friends and instructors.

Bricks 4 Kidz (Colleen Arseneau)

Our Bricks 4 Kidz® workshop will build on the universal popularity of LEGO®Bricks to deliver high quality, educational play. Every class is a fun, enriching experience for your child, using the classic bricks loved by generations of children. We may be using a variety of bricks including robotics.

Benefits of the Bricks 4 Kidz Program

- Reinforce science, technology, engineering and math concepts
- Develop an appreciation for how things work
- Build self-confidence and problem-solving skills
- Foster teamwork and collaboration
- Spark imagination
- Provide a safe, enriching environment to create and play
