Welcome Back!

Another year of homeschooling!

[HENB](#) would like to extend a warm "back to homeschool" welcome to you - a valued member of this organization.

Once again, with almost a month under your belt, we pray that you are finding your footing. We know that getting back into the swing of things (or starting for the very first time!) can be daunting. It's ok to tweak the things that aren't working as planned. Every family is different! It bears repeating - You are exactly the mama and papa the Lord knew your children would need! So hang in there. Academic excellence and a spotless house are all for naught if your children are out of relationship with you or God.

You need not be alone! Join a [local support group](#) and experience Ecclesiastes 4:9-12 New International Version (NIV):

"9 Two are better than one,
because they have a good return for their labor:
10 If either of them falls down,
one can help the other up.
But pity anyone who falls
and has no one to help them up.
11 Also, if two lie down together, they will keep warm.
But how can one keep warm alone?
12 Though one may be overpowered,
two can defend themselves.
A cord of three strands is not quickly broken."

What exactly does HENB do? [Here's the case for HENB:](#)

Connect: HENB seeks to connect home educating families with local support groups, information about home education and with resources.

Advocate: HENB will advocate with the government and with educational institutions (such as UNB and Community Colleges) on behalf of home educating students across NB.

Support: Local support groups are provided with resources to better support their members. Local chapter leaders are provided with support through a leadership breakfast each fall.

Educate: HENB educates home educating families through its HENB Conference each June and provides a professional development day for educators through out the school year.

Urgent!

Help us keep a great program!

Laura Barrett, (Education Program Assistant at the Huntsman) would like to hear from those who have taken part in the homeschool marine biology classes at the aquarium in St. Andrews.

The program may be at risk of ending due to lack of enrolment. As such, Laura would like to gather some feedback about the course content, dates, costs, etc., from parents, as she prepares to discuss the program's future with aquarium administrators.

Please send any comments, suggestions, etc. to Laura at lbarrett@huntsmanmarine.ca
